

What does a fish sing at Christmas? Christmas corals.	What did the paper hat say to the cracker? "You're pulling my leg."
What did the cracker say after it was pulled? "I'm in two minds about this."	Why are crackers always so nervous? They know they're about to crack under pressure.
Why did the cracker go to the doctor? It kept snapping at people.	Why was the paper crown so proud? It came out on top.
Why did the star on the tree need a nap? It had been up all night.	What did the stocking say to the fireplace? "I'm hung up on you."
What did the gravy say to the potatoes? "Let's not make a mash of this."	Why did the sprout feel left out? Nobody ever asks for seconds.
How does a snow globe say hello? "What's shaking?"	Why did the Christmas tree hire a lawyer? It wanted a fir trial.
Why was the Advent calendar so worried? Its days were numbered.	What did the wreath say to the front door? "Hang in there."
Why did the candle quit its job? It was burned out.	Why did the robin sit on the Christmas card? It was trying out for cardinal.

Why did the marshmallow go to the party? It wanted to make a toast.	What do you call a snowman who loves to dance? A snowballerina.
What's a sled's favorite subject at school? Snow-cial studies.	Why are Christmas lights such good students? They are very bright.
Why do carolers never get lost? They always know the score.	What do you call a pudding that tells jokes? A figgy pun-ding.
Why did the tinsel go to art school? It wanted to learn how to draw attention.	What did the cocoa say to the marshmallow? "You float my boat."
